## ISAM 2025

---

6<sup>th</sup> International Symposium on  
Additive Manufacturing

May 21–23, 2025 | Dresden

# ISAM 2025 – 6<sup>th</sup> International Symposium on Additive Manufacturing

ISAM 2025 will show how AM technology contributes significantly to increasing industrial value today and in the future. The conference will focus on the vibrant topics of our industries and scientific communities. Experts worldwide will report on the latest developments, perspectives, and applications of Additive Manufacturing. Digitalization and Artificial Intelligence will help push the boundaries of AM processes further.

## Topics

- Design
- Materials
- Monitoring and process control
- Optimized process chains
- Artificial Intelligence and digitalization
- Industrialization and business cases
- Trends in AM and sustainability

## What to Expect

- Renowned speakers from research and industry
- Industrial exhibition and poster session
- Open Lab @Fraunhofer IWS
- Exchange of new ideas, discussion and networking

## Fees

- Regular: 690 EUR | 540 EUR\*
- Speakers: 490 EUR | 340 EUR\*
- Students and alumni: 340 EUR | 190 EUR\*

\*Early bird rate
